For this play to work we must communicate, you should not be chasing things out of your zone unless the ball is thrown.

CB Outside leverage, key outside reciever, if they run a go route lock it. If they run anything in breaking (slant/in/post) DO NOT CHASE. Pass off to SS/FS then get eyes to inside reciever for anything coming back out (out, corner, bang). If inside reciever doesn't come out, slowly reduce field to help SS.

SS Rob middle of field. Eyes to center first for quick hook, pick it off. Then eyes and ears for anything coming inside. Absolutely DO NOT chase routes outside.

R Rush your ass off

FS Deep middle, do not widen to any go routes from outside recievers or corner routes. Cover any seams/posts, make a play on the ball. If nothing comes, look for work.
